FORTY-SIXTH CONGRESS.

DAILY PROCEEDINGS OF THE SENATE AND HOUSE.

The Exodus Committee--Parnell and Dillon in Richmond---Other late and Important Dispatches.

SENATE.

WASHINGTON, Feb. 6.—In the Senate the Committee on Commerce to day devoted another session to the subject of regulating inter-State railroad commerce.

The sub-committee on the Ragal bill were ready to report it back without material modification, but the sub-committee on the McLane bill had not fully completed their consideration of that measure. It was, however, discussed at some length, in connection with the Ragan bill and McCord proposition, and finally the whole subject went over for possible action at the at the Committee's next regular meeting on the 10th instant.

HOUSE.

The House, after transacting some miscellaneous business, proceeded to the consideration of private bills.

Mr. Upson, of Texas, from the Committee on Military Affairs repoated a bill authorizing the Secretary of the Treasury to ascertain and report to Congress the amount of money expended and the indebtedness assumed by the State of Texas in repelling the Indians and Mexican raids. Pointed and recommitted.

The House then resumed the consideration of the bill pending in the morning hour, removing the political disabilities of John Owens, of Virginia.

Mr. Conger, of Michigan, opposed the bill for the reason that the petition attempted to smooth over the late war of the insurrection by calling it the war of the Confedracy. He said there had been too much of this attempted justification of treason and rebellion by calling them rose colored names. If the petitioner wanted his political disabilities removed because he had been in rebellion against his government, let him say so, and not call it the rebellion War of the Confederacy.

Mr. Goode, of Virginia, said no particular form of the petition had ever been prescribed, heretofore, and he thought it too late in date, fifteen years after the end of the war, to take a new departure like this, and make the man write the words, "traitor and rebel" on his own brow with his own hand, and get down in the dust and cry "unclean." Before the great government would consider his petition.

Mr. Conger replied with the same acrimony, and the House seemed on a point of drifting into a political discussion, when Mr. Ward, of New York, objected to any further debate, as being unwise and unprofitable. The bill was then passed 166 to 46.

The bill removing the political disabilities of Joseph A. Seawell, of Virginia, was passed without any objection.

Mr. Reed, of Maine, from the Judiciary Committee reported back the Senate bill for the relief of Gibbs & Co., of Charleston, S. C., passed.

The House then went into a Committee of the Whole on a private calendar, but without transacting any important business.

The committee rose and the House adjourned until Monday.

The Hayt Commission's Report.

NEW YORK, Feb. 6.—A special committee of the Indian commission investigating the case of ex-Commissioner Hayt has completed and made public its report after considerable modification. The report says that the charges involve serious accusations against Agent H. L. Hart and Inspector J. H. Hammond, implicating the commissioner as passively consenting to Hammond's irregularities, if not actually co-operating with him, understanding that Mr. Hayt and his friends were to be benefitted thereby.

Victoria's Band Again.

NEW YORK, Feb. 6.—Denver specials state that on the morning of the 3d, Major Morrow again caught up with Victoria in Malpais and the Lava beds on the east side of the Sauandress mountains. Victoria held a strong position on top the bluff and made a determined resistance all day, but toward evening was dislodged and compelled to abandon the position. Darkness, together with the roughness of the country prevented the pursuit that night. The troops lost one Indian scout, and four men of the Ninth Cavalry were wounded.

The Robbery of $125,000 in a Satchel.

NEW YORK, Feb. 6.—An old man named Kenneth Albro, who came here Saturday from Texas, where he is reported to have been extensively engaged in cattle raising was robbed of his satchel containing $125,000 in registered United States bonus while ascending the steps of the sub-Treasury. He alleges he was accosted by two men, one of whom dropped a pocket-book before him, and on his attention being called to it, he was pushed down and the satchel wrenched from his hand. He has no clue to the thieves except the answer to the advertisement which he caused to be inserted in the morning papers offering $5,000 for the return of the bonds, in answer the thief agreed to surrender them on the payment of $25,000.

Foreign Flashes.

LONDON, Feb. 6.—A Paris dispatch states the Budget Committee proposes a vote of credit of eight million francs for the construction of a subterraneous telegraph line.

A Berlin dispatch says from the fact that the Archduke Aforecit is to represent Austria at the twenty-fifth anniversary of the Czar's accession to the throne, the German press concludes that a reproachment between Austria and Russia is going on. The Archduke is the recognized friend of Russia.

PARIS, Feb. 6.—Several more deaths have occurred among the wounded in the railway accident and many others are expected.

A Berlin dispatch states it is now certain that the Count de Le Vallier will return to his post at Berlin. The Radhai journal *Berliner Zeitung* has been confiscated for publishing sharp attacks upon the Government. This is the first instance for many years of a non-socialistic paper being suppressed.

The Coffee Crop.

RIO Janerio, Feb. 6.—The new coffee crop is reported good and abundant. Private advices estimate the cotton crop at 425,000 bales.

More About the Hurricane.

MADRID, Feb. 6.—Officials dispatches have been received giving further details of the recent hurricane in Philippine Islands, twenty-five vessel of various classes were wrecked, including four French frigates and a large number of other vessels were damaged. Forty-six persons were drowned.

Grant in Havana.

HAVANA, Feb. 4.—The reception to General Grant, at the Vice Regal Palace last night was a splendidly arranged affair. The elite of Havana society and many transient and resident Americans were present. The Palace was elegant-decorated with flowers and illuminated. The staircase was lined by the Captain General's body guard in full uniform. Generals Grant and Callejas, with their wives, received the visitors. All were introduced to General Grant. The dancing lasted until 4 o'clock in the morning. The affair was highly satisfactory to General Grant and his party,

Court Martialed.

WASHINGTON, Feb. 6.—At the Cabinet meeting to-day the sentence of court martial dismissing Maj. Reno from the service was approved, and the order of dismisal will shortly be issued. The Cabinet also considered the threatened invasion of the Indian territory, and it is understood that the President will soon publish a proclamation warning settlers that any attempts to invade the territory will be forcibly resisted.

Upside Down.

LONDON, Feb. 6.—The Norwegian Brig Eram, Captain Marchusen, from Wilmington, N. C., December 27th, for Glasgow, has been towed into Jamlashi, Scotland, bottom upwards. Her crew is supposed to have been lost.

Death in the Flames.

COLUMBIA, S. C., Feb. 6.—A special says that a colored family of nine persons named Lorick, living fourteen miles above Columbia, were burned to death on Tuesday night by a cabin taking fire.

The Oates Cotton Factory.

Charlotte Observer.

It is now settled that work on the prospective cotton factory will be begun as soon as the weather moderates sufficiently for making the brick, of which material the factory is to be constructed. The site has not yet been determined. There are two or three places at the command of the projectors of the enterprise, and when they are ready they have only to choose between them. The dimensions of the main building are 250 by 68 feet. In addition, there will be a wing of 57 by 63 feet. There will be necessary besides, several adjoining buildings, such as the engine house, offices, &c. The building, as has been stated, will be of one story. The machinery has been ordered, to be delivered from June to August, when the proprietors hope to be ready for its reception in the factory.

SUDDEN DEATH IN A THEATRE.

The Startling Fate of Colonel Nelson Trusler.

At Indianapolis, Ind., on Thursday evening last, at the Grand Opera House, just as the curtain was about to be rung up on Gus Williaus' play of "Our German Senator," the attention of the people in the theater was attracted to a startling incident in the central aisle, where it was seen that a man had fallen heavily forward, striking a chair in the paraquette. A woman's shriek rang through the building with appalling distinctness. "What is the matter?" "Who is it?" were questions asked on every side. It was Colonel Nelson Trusler, United States prosecuting attorney. He had fallen dead, and the ladies who were with him were his wife and daughter. They were immediately removed from the theater to their home, in a distant part of the city, followed by a number of sympathizing friends. The body of the dead Colonel was carried back into the lobby and a physician was immediately brought to his side, but there was no indication of motion about the heart. The news spread rapily over the city and a large crowd assembled. An undertaker was sent for and preparations were at once made to remove the body to the house that Colonel Trusler had left in apparent good health but a short time before. The situation was a startling one Within the theater the commotion soon subsided; the curtain went up and the play began. The actors, and Mr. Williams most of all, seemed to begin their entertainment with the shadow of death resting upon their spirits. It was an awful reception, but they succeeded in soon mastering the situation, and, before the corpse was removed, the immense throng was heard responding to the hits of the play with rounds of laughter and clapping of hands. The deceased has been suffering, it appears, for some weeks with indigestion and heart disease, and to these facts his death is attributed.

Sitting Bull and His Band Driven South by Hunger.

A dispatch from Fort Benton, M. T., is as follows:

"Iron Pipe, Chief of the Gros Ventres, with twelve lodges of the Nez Perces and Sioux, arrived at the coal banks last night. They are now encamped near Eagle Rock, about twenty-five miles from the coal banks. The ranch men in that vicinity are on the alert for depredations from these Indians, as they believe them to be on a marauding expedition, and would take advantage of any small party that should come in their way. Iron Pipe reports that Sitting Bull, with six hundred lodges, is encamped on the big bend of Milk river. They are in a very destitute condition, and have suffered untold miseries this winter from hunger. Many of his people are badly frozen. The young bucks were forced to destroy all the lodges to compel the old ones to leave, as there is no longer any game across the line, and, being on the verge of starvation, they were forced to follow the buffalo south to procure food. They have even traded a great number of their ponies to the half-breeds. Sitting Bull positively declares that if allowed to hunt on this side he will commit no depredations and will be friendly to the whites, but if his people are molested while hunting the buffalo, he will fight, even if Miles himself puts in an appearance."

PALACE OF THE STARS.

DEPARTURE OF ITS FORMER LUXURY AND MAGNIFICENCE.

Result of Disasters to the Turkish Nation---The Income less than the Expenditures.

Boston Herald.

Since the disasters that have befallen the Turkish nation and ruined the empire, the luxury and magnificence of the Padishah have departed. Poverty, and even distress entered the palace of Yildiz when the Grand Duke Nicholas encamped his hosts at San Stefano, at the foot of the half-destroyed walls of the ancient Byzantium; and the poverty and distress has never since forsaken the imperial court. The court of the Sultan, however, is even now one of the most numerous, and, without doubt, the most costly, in the world, notwithstanding the great reduction in Abdul Hamid's civil list. The pomp and traditions of the proud house of Othman can never be lost sight of by any of its scions, so long as the most meagre remnant of the dynasty remains.

The Yildix Kiosk, the Palace of the Stars, which stands in park-like grounds on the summit of a hill, overlooking the blue waters of the Bosphorus and of the Golden Horn, is now converted, owing to the mistrust and timidity of its imperial proprietors, into

NOTHING SHORT OF A FORT.

The Sultan is ever suspecting some attempt on his capital and person, either from the hands of a foreign foe or from his own people. High and thick fortifications have been thrown up around the Kiosk, and these are defended by 30 huge cannon and a garrison of 3000 men, who are chosen and petted by their sovereign as were the pretorians of the mighty Cæsars.

Among less important personages of the household of the "king of kings" are the *guidish muridi*, who accompanies the Sultan on all his occasions; the *mudir*, or director of the palace, who gives orders to the domestics; the director of the imperial treasury, under the orders of the minister of the civil list; a director of telegraph with ten operators; five librarians who take charge of the books his majesty is either too ignorant or too indolent to make use of; twenty-five janitors and as many night watchmen; ten men employed to unfold the carpet when the Sultan and his suite say their prayers; ten men constantly employed in roasting coffee; ten others whose functions are to clean out and refill with tobacco their imperial master's pipes—chibouks, narghils, etc., and who also make cigarettes for the whole palace; twenty male keepers of the wardrobe, with hairdressers, lamplighters, coachmen, bathmen oarsmen by dozens.

The music of the palace, which is very exquisite, is under the direction of an Italian, Guatelli-Pasha. Bands play during each meal, and five professional musicians, under the superintendence of Guatelli Pasha, instruct the princes and princesses of the imperial establishment. The theater is under the direction of a *kayaldji*, who takes an important part in the festivities of the Ramazan, Bairam and other similar *fetes*. On ordinary occasions comedy is sustained by a troop of commedians, who, for the most part, are, strangely enough, Armenians.

However much the Sultan Abdul Hamid may be ignorant of, he has the most profound knowledge of what is good on matters pertaining to the culinary department. He has apparently studied the *cuisine* with all the diligence of a Soyer. In his household there are ten masters of the table, whose duty is to see to the provisioning of the kitchen and the setting out of the different tables in the various sections of the palace, all of which are very numerous and have to be supplied with almost every imaginable dish. The functions of the "masters" are different to those of the ten *maitres d'hotel*, who prepare the *menus* and gave their orders to the cooks. Of cooks and plate-washers there are some three hundred; and two hundred waiters are kept running backwards and forwards from the kitchens to the table of the Sultan, his ladies and the high functionaries and dagnitaries of the palace. A large number of employes, living within the precincts of the palace, have obtained the concession of dining in the imperial kitchen, and it is asserted that 800 families, in all about four thousand persons, dine daily in the Yildiz Kiosk.

To maintain this tremendous household, large sums of money are required. The expenditure of the palace is double that of the income of the civil list. Two months ago the royal purveyors refused credit to the Sultan. To meet the emergency, Abdul Hamid arbitrarily took possession of the custom house and the *octrois*, and thus raised the state of seige. But, as the incomes from these have been mortgaged, and mortgaged over again to foreign powers, it is not likely that the creditors of Turkey will allow such a high handed proceeding to continue. In the meanwhile the eunuchs, the cadines and others of the hangers-on of the palace are jubilant at the idea of once again getting something to eat; but he would be a bold man to affirm that the Palace of the Stars and its imperial master will in possession of even their present mutilated splendor and plenty twelve months hence.

Cotton Circular.

LIVERPOOL, Feb. 6.—This week's circular of the Liverpool Cotton Brokers' Association says that cotton was in good demand throughout the week and considerable business was done at advancing prices. Although the market closes quiet the quotations are generally raised. There was an extensive business in American, which advanced 3-16 d, but there was less doing on Thursday, and the quotations closed at only 1 d above those of last Thursday. Sea Island continues in request and the market was freely supplied at previous rates; futures opened with hardening tendency. They became strong and active on Tuesday and advanced 3-16 d, but since then have been quieter, and after some fluctuations the final rates show an advance of 1-8 d, over those of last Thursday.

Low Rents in London.

Rents, house for house, have always been lower in London than in New York, and, as a consequence, reduction in rents due to hard times is usually larger in the latter place; but, even in the worst days after the panic, New York has seen nothing like the reduction in London rents since 1876. The rent of a handsomely furnished abode in the "West End" has fallen from $150 a week, for the season, in 1876, to $45 in 1879, and as such houses are practically unoccupied the rest of the year, such prices point to a fall from $4,000 to $5,000 down to $1,200 to $1,500 in annual rental—the latter figures being far below any rents for furnishing abodes of the same character in New York.

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Chlorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."

W. F BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anæmia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.

GEO. T. HARRISON, M. D.,
New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.

G. M. D. PATTERSON, M. D.,
Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.

E. O. GRIGSBY,
DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

THE NEGRO EXODUS.

THE SENATE EXODUS COMMITTEE AGAIN IN SESSION.

Testimony of Responsible Colored Men—The Idea that Negroes Were Oppressed and Ridiculed.

WASHINGTON, Feb. 6.—The Senate Exodus Committee held a protracted session to-day and examined nine witnesses. Most of the evidence went simply to corroborate that previously taken, but some of it was very interesting, especially the testimony of the colored farmers from various parts of North Carolina who, before the war, were either penniless or slaves, and who are now owners of farms of from two hundred to one thousand acres.

C. S. Wooten, a farmer living near LaGrange, attributed the exodus to misrepresentations of an agitator named Perry, who deluded the negroes with the idea that their traveling expenses would be paid by the government. Perry, he believed, received one dollar from the Baltimore and Ohio Railroad Company for every passenger furnished their road. Wooten ridiculed the idea that the negroes were oppressed in North Carolina, and thought they had as good opportunity to make a living there as laborers have anywhere.

James Buchanan, of Indianapolis, a former abolitionist and prominent Greenbacker of Indiana, testified that there was no room or demand for laborers in that State. Every winter the supervisors of the poor had to feed ablebodied men who could not get work. He was and always had been opposed to the exodus, and he believed that nine out of ten of the Republicans in his State were opposed to it. Half a dozen Republican leaders, however, whose names he gave had tacitly encouraged the movement, with the hope that their party would derive benefit from it.

John O'Kelly, of Raleigh, N. C., who was a slave before the war, testified that he was worth five thousand dollars.

Another colored man from near Goldsboro, N. C., said he owns 475 acres of land, part of which he rents to white men.

W. W. Arrington, of Nash county, testified that he was a slave before the war but now owns one thousand acres of land.

A New Multiple Telegraph.

HARTFORD, Conn. Feb. 2.—Parties in this city have become owners of a new "multiple" telegraph system invented by a Frenchman, which, it is claimed, as far outstrips the "quadruplex" system as that does the ordinary methods. It has been on private trial here, and to-day Messrs. W. H. Vanderbilt and Jay Gould are in the city making an investigation into its merits.

Another Proposition.

Charlotte Democrat.

"Mr. Best" has been to Raleigh and made another proposition about purchasing and completing the Western North Carolina Railroad. We hope he will be able to make such honest terms as will relieve the State Treasury of a heavy expense.

Hudson's Bay.

The east coast of Hudson's Bay is reported to be undergoing very considerable changes its level. Since the pots of the Hudson's Bay Company were established at the mouths of the various rivers, there has been an incresing difficulty in approaching them with large craft; and this elevation is estimated to amount to between 5 feet and 10 feet within the last 100 years. The same changes have been observed on the west coast of the bay, at the mouth of the Nelson and Hayes rivers, near which is an island called Mile Lands, now several feet above high water, which, within the memory of man, was always submerged at flood tide.

Tobacco in Burmah.

The *Lancet* publishes a letter of the late Professor Parkes, on the subject of smoking. In reference to the use of tobacco by young persons he says, it is curious in Burmah to see children smoking in their mothers' arms; and yet when I was serving in Burmah, many years ago, I often saw a woman walking along smoking her cigar of tobacco rolled up in a plantain-leaf, and carrying on her hip her child of two or three years old, who also had his or her little cigar, which was smoked with the greatest gravity. On the whole question the professor was unable to arrive at any positive conclusions; he, however, considered that the health would undoubtedly be impaired by excess, while moderate use was not harmful, except in youth.

The Gentle, Gentle Indian.

Burdette.

Dear, gentle, noble-hearted Indian. How often, like other good men, he has gone wrong. Let us feed him, and give him some new guns, and when in his wayward moments he breaks out and slaughters a few Colorado families, just to keep his hand in, let us give him plenty of whisky, that remorse for his unkindness may not prey upon his noble soul.

And, by the way, let us put a few pounds of strychnine into it, to make the possibility of remorse still more thoroughly impossible.

From Warren County.

Correspondence of the News.

WARRENTON, Feb. 5.—We had fifty marriages in this county for the month of December, and over ninety-five for the month of January.

Miss Bessie Fett, daughter of Mr. Eli Fett of this place, and Mr. Brewer, of the firm of Kelly, Purefoy & Brewer of Raleigh, were married on January 27th. They left for a northern tour.

The feeling in this county between the blacks and the whites is very creditable. We hear of no steps being taken to emigrate from the county to Indiana. The colored people seem to be satisfied with their lot and condition. We give our colored people the credit of having too much intelligence to listen to the infamous and damnable falsehoods of such men as Williams, Perry and others of the infamous class of political scapegoats and villains. It is a great pity that the laws of the country cannot, or do not, take cognizance of these villanies.

While the Grant and Sherman "boom" is exciting the minds of the people around Washington and up North, we are quiet down in this county. It seems that politics has not taken hold of the people here—all their time seems to be occupied in attending to their individual affairs.

The people have not forgotten the fraud perpetrated upon Tilden in 1876. We think it will exert some influence in framing public sentiment against the Democratic candidate for the next Presidency, though no fair-minded, reflecting man, has any reason to allow such an influence to operate upon him. The Electoral Commission was a necessity, in fine, we may term it the *dernier ressort*.

We think it will require extraordinary exertions to develop the zeal and interest in politics which existed in 1876. People seem to think that it makes very little difference who is the Chief Magistrate of the nation, as regards the prosperity of the country.

A negro was arraigned before one of our magistrates not long ago for forgery. He was committed to jail. These crimes are not frequent in our county.

Mr. Sol. Williams, we learn, upon returning from supper last Thursday night, discovered that his store had been entered and two hundred and fifty dollars taken therefrom.

Our county makes pretty fair flue-cured tobacco, read the following: Mr. Loyd, of Sixpound, sold his crop of flue-cured tobacco for thirty dollars per hundred. Mr. Dixon, of the same township, sold his for sixty dollars per hundred. COR.

Appeal for the Sufferers of Ireland.

Correspondence of the News.

RALEIGH, Feb. 6.—We desire to make an appeal to you in behalf of our starving countrymen. Three hundred thousand as seen by telegraph, are stricken by that horrible calamity, famine! And this, like all other famines that have occurred in Ireland, is purely "artificial" (?) The land is capable of supporting four times the number that now live there; but the system of land-lordism and "reek-rent," which leaves the farmer, after this rent is extracted from him, totally unable to bear any slight failure in crops that may occur in the ensuing year. In fact, sir, many of them have to go in debt for seed to go in the ground in the Spring, having consumed their own seed to keep them alive during the winter. It is the only country in the world where nothing is made by industry and nothing lost by idleness. If you make a good crop and seem to be prosperous, your rent will be raised upon you; and hence, the failure, this time, to be able to sustain themselves against bad crops, bad seasons and American competitions. We hope, Mr. Editor, that this appeal will find response in our countrymen in Raleigh and the good charitable citizens to call a public meeting and extend a helping hand as far as they are able. Imagine, sir, if you can, of the disasters and misery that exists in that once happy and prosperous Ireland! of the little half starved children, with their bony hands, with the tears trickling from their famish-stricken eyes, appealing to their equally famine stricken mother for bread! and that able-bodied husband, driven to madness of the sight of his skeleton family. Sir, we say again, we hope some of our countrymen or some of our good, charitable citizens will take this matter in hand at once, and call a public meeting at Metropolitan Hall.

We are satisfied our worthy Mayor Manly, who has a heart big enough within him, will give the use of the Hall and preside at the meeting.

We remain, sir,
Very respectfully,
PATRIC MCGOWAN,
JAMES DOYLE.

European Wolves.

That the ravages of wolves in the settled countries of Europe should exceed anything of the sort in our western wilds is a little curious. The Pesther Lloyd mentions several cases of depredations by wolves. In the suburbs of Temesvar they destroyed any animal which was not housed. A clergyman returning in a sledge from a neighboring town was beset by a pack of wolves and torn to pieces, and at Szalouta, a shepherd was killed and eaten as he was passing along the road at night.

THE POSTAL CARD.

NEAR THREE HUNDRED MILLION USED IN A YEAR.

An English Invention--The French Commission Search for Information in the U. S.

Boston Herald, 4th.

The little postal card, though it has been before the public a trifle more than a half dozen years, has become almost as much of an element in the social and commercial transactions of every day life as the system of mail and letter transportation itself. The wonder, after all, is not so much at the popularity and general usefulness of this cheap and convenient means of correspondence as the surprise that such an active and go-ahead people as comprise the Yankee nation should not have conceived and adopted it years or generations ago. The only real and sincere growlers over the inovation of the postal card are to be found among the writing paper and envelope manufacturers, and, when it is considered that its introduction has effected a decrease in their business to the extent of a dozen or fifteen million dollars annually, their discomfiture is, in a degree, explicable and pardonable.

It must be admitted that there is something of force and soundness in the argument of the paper makers, that, if the government can afford to furnish special stationery for a communication, and carry it all the way from Maine to California for a penny, it ought, in justice, to transport the communication for a like sum when the writer furnishes his own stationery.

Neither the postal card nor cheap letter postage can be reckoned in any sense as American ideas. England was the pioneer in both reforms, and, in the matter of postal cards, their usefulness and convenience were experienced in various other foreign countries before the American Congress responded to the public demand, some six years since. The first requisition from the postoffice department was made in May, 1873, for a lot of 5,000,000 cards.

The growing popularity of the postal card as a means of correspondence is something wonderful. The entire number manufactured and used during the first year of their introduction was 100,000,500, and during the year which has just closed, the aggregate number sent out was 245,063,000. This latter number is an increase over the number issued in 1878, of 36,979,000. It would probably be an error to attribute this marked increase in the postal card service to the late or current business boom, for it would seem that in periods of depression the public would be more likely to avail itself of cheap postage rather than in more prosperous times. The true explanation, evidently, is the growing favor which the card finds in the community as it becomes more familiar, as is manifested by the steadiness of the increased demand during the half-dozen years it has been before the community. The orders from different postoffices differ in amount very greatly, of course, and they do not in any degree represent the population or general business done at the several points. It may be stated, as an interesting fact, that New York has lately taken nearly one-tenth of all the cards issued, consuming upward of half a million a week. All the large cities use more than the actual business of the postoffice indicates, but this discrepancy is accounted for from the fact that many country manufacturers and traders have their advertising circulars printed on the backs of postal cards, and the city printers who do the work buy their cards in the city where the printing office is located. Many small postoffices surrounding large cities like Boston and New York also purchase from the nearest metropolitan point, instead of the postoffice department. The proper way is for a postmaster to send his order to Washington, which in turn is sent to Holyoke, and from this point the cards are forwarded direct to their destination. The capacity of the concern is about

TWO MILLION PER DAY.

It is intended to keep about twenty-five million cards on hand, and for this purpose a special fire-proof vault has been provided. Beside the increased demand for the domestic cards, there has also come a sudden call for the new international cards. Upward of two million have been furnished during the brief period of their introduction. While it may be true that England has taken the lead in the postal-card blessing in point of priority of date, it is questionable if the system has been so generally adopted by all classes of the community. This inference is drawn from the presence of a couple of commissioners of the French government at the Holyoke manufactory a short time since, who were sent over specially to investigate the working of the postal card branch of the mail service in the United States previous to its adoption in France. They freely admitted that this country had the most perfect postal system in the world.

If the Elephant Can be Sold.

Reidsville Times,

The question of the sale of the State's interest in the Western North Carolina Railroad is agitating the columns of some of the papers. We see but one side to it. If the elephant can be sold the tax paying people would rest much easier. We learn the Hon. Giles Mebane in Caswell, so far as he has read to date, favors the sale.

Mr. J. L. Stone, the Sewing Machine, Piano and Organ man, left this morning for New York and other Northern cities, and will return in about two weeks. Those anticipating buying Pianos or Organs can save from $50.00 to $100.00 by waiting until he returns, as he will be prepared to furnish any instrument made in the United States.

Knabe Pianos.

Mr. N. H. Bennett, agent for Wm. Knabe & Co., has another invoice of those celebrated pianos on the road. If you contemplate purchasing, wait and see them. They will be on exhibition at No. 20 Fayetteville St., about Saturday of this week. The best is the cheapest. It is poor policy to spend our money for cheap pianos without any reputation whatever.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

SATURDAY FEBRUARY 7, 1880.

YELLOW fever has broken out at several places in Brazil. Up to the present time the epidemic has appeared in a mild form, but fears are entertained that it may spread to Rio Janeiro. On the 10th ult. four hundred bandits, having expelled the Brazilian authorities from Januaria, in the presence of Minas Gerals, sacked the town and burned twenty-two houses. They threaten to attack other towns.

THE appropriation by the House of $100,000 for a monument at Yorktown is severely criticised by the Radical press. The same organs have derived profound satisfaction from the expenditure of millions for Radical bulldozers to elect Republicans to Congress in Democratic districts. Millions for party, but not one cent for patriotism, is the Radical motto.

IT is not safe for a Russian newspaper to suggest that the government has forgotten anything. Here is the *Golos* deprived of the right to insert advertisements for a month, because it intimated that an archbishop and two bishops, who had been incarcerated on account of their creed, twenty-six, twenty-seven and twenty-two years respectively, had been overlooked by the authorities. The conclusion was a natural one; but appears that the government is determined that it shall be understood, once for all, that it never forgets. The *Golos*, at least, will be apt to remember this.

A WASHINGTON dispatch says: "As it is generally understood that the administration has definitely abandoned its civil service reform policy, movements will shortly be inaugurated to revive and reorganize all the State Republican associations which disbanded in consequence of the civil service orders issued by Mr. Hayes on his accession to the Presidency. These associations, composed of department clerks and other government employes, were managed always for political purposes, and on reorganization will be used in the same direction during the coming Presidential canvass."

THE influx of Chinese into California appears to have been effectually checked, and statistics published at San Francisco show that the outgoing tide of the Celestials far exceeds the incoming one. It is also said that the Imperial Government of China has succeeded not only in establishing stringent measures for the prevention of emigration to foreign countries, but also for the discouragement of the foreign import trade, by producing at home, and by a general policy of inspiring the Chinese people with intense resentment of the persecution encountered by Chinese emigrants in countries inhabited by European races.

THE mercantile and trade organizations of Boston have drawn up suggestions for a new national bankrupt law, which they have forwarded to New York for the approval of the merchants of that city. The principal points in the new law are, that it clothes registers with judicial functions, and gives them and their clerks fixed salaries instead of fees. A debtor is to be adjudicated a bankrupt on the petition of three creditors whose provable debts amount to $250. Blameless debtors are to be discharged within thirty days from the first meeting of their creditors; others when the estate has paid fifty per cent, or on consent of four-tenths of the creditors in number and value. This plan, it is said, is cumbrous, but would expedite the settlement of bankrupt estates.

FRESH SIGNS OF PROSPERITY IN FRANCE.

In spite of all drawbacks, France is one of the thriftiest and most prosperous states in Europe. Perhaps we ought to say the most prosperous of any. She not only carries easily the burden of her five milliards of francs of war debt, but by wise financiering did not find it necessary, in the midst of her worst storm and stress, to suspend specie payments. This, too, notwithstanding the serious loss she sustained in the wrestling from her by the German victor of her two fine provinces of Alsace and Lorraine. But the best evidences of her recuperate power is the remarkable series of works of internal improvement she is now about to undertake. The plan which has been adopted by the government comprehends a complete net work and close union of canals and railways covering all parts of France. To effect this other canals and railroads are to be constructed that will add 16,000 miles to her existing system of railways and 900 miles to her rivers and canals. The London "Capital and Labor," a recognized authority on such subjects, states that "rumor is already busy with the names of English firms about to enter into contracts with the French government, and expresses the further opinion that by the prosecution of these great works of internal improvement the iron and steel trades in the United States and Belgium will also be benefitted.

James Gordon Bennett's Subscription.

Brooklyn Eagle.

The largest single subscription yet made for the relief of the distressed people in Ireland, was made this morning, by James Gordon Bennett, in the name of his paper—the *New York Herald*, the sum being $100,000. This gift, which is not princely because no prince has shown the heart to equal it, proves, among other things, that it is not to be inferred from the adverse view taken by any independent journal of any proposed method for improving the condition of Ireland that its conductor is not in genuine sympathy with the afflicted and sincerely anxious to aid them. It is too much the habit for struggling men to assume that all who do not concur in their mode of procedure are their enemies. This generous act on Mr. Bennett's part may greatly surprise those who have received their only impressions of his character from his detractors; but those who know him better will see in it only a notable manifestation of liberality on the part of one whose deeds of charity are innumerable.

We would much prefer the State would hold on to this road and push it to completion. An Important Personal Item.

Charles S. Prentice, of Toledo, O., went to Paris and thence to England to be treated for Bright's disease, and after the best physicians of both countries had done what they could for him, gave up in despair and returned to America to die. Here he received further treatment from other skillful physicians without benefit, and while "listlessly lingering in pain and anguish," he says, heard of the Safe Kidney and Liver Cure, took it, and was completely cured in a few weeks. He gives circumstantial details of his painful experience and astonishing cure, in a long letter to H. H. Warner & Co., which will be forwarded on application.

Mrs. Joe Person's Indian Remedy.

We print elsewhere additional testimonials as to the wonderful curative qualities of this valuable medicine. To our own personal knowledge many persons in this vicinity have used it with signal benefit, and we note that it has a large sale in this city. We rejoice that the estimable and enterprising lady, who is doing so great service to afflicted humanity, is receiving a reward for the benefits she is conferring upon those whose diseases have been considered incurable. Heretofore, when the physician announced that the patient was afflicted with scrofula, his doom was considered sealed, and he had before him a lingering sickness and painful death; but now, there is not only hope for the diseased, but almost a certainty of cure. Many who have been snatched from the jaws of death by the use of this medicine, are now in the flush of health and vigor. The medicine is not only a specific for scrofula and cutaneous diseases generally, but is a pleasant and highly beneficial tonic, invigorating the system, improving the appetite, and really rejuvenating the body.—*Newbernian.*

The medicine can be obtained in Raleigh from Wm. Simpson, F. H. Heartt and Pescud, Lee & Co. Persons desiring to see testimonials of cures, can obtain circulars by application to them or Mrs. Person.

What a Pity

that the otherwise beautiful girl should have had such bad teeth. And all because she did not use SOZODONT. It costs so little to buy it considering the good it does, and its benefits stretch out into her future life. Poor girl!

Answer this.

Did you ever know any person to be ill, without inaction of the Stomach, Liver or kidneys, or did you ever know one who was well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure.—Ask your neighbor this same question.

Indigestible Bread.

The reason why adulterated baking powders make bread and biscuits very indigestible, is because they harden the gluten of the wheat and render it less soluble. The purity and perfect combination of Dr. Price's Cream Baking Powder makes all articles easy of digestion.

Distance Lends Enchantment!

Maud had a fine figure, good face and pretty name. One should see her at a distance. When she began to talk, you realized that she never used SOZODONT. Her breath was unlike the breezes of Araby the blest.

Don't take any of the quack rostrums, as they are regimental to the human cistern; but put your trust in Hop Bitters, which will cure general dilapidation, costive habits and all comic diseases. They saved Isaac from a severe extract of tripod fever. They are the *ne plus unum* of medicines.

A Down-town Merchant.

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists at 25 cents a bottle.

Revolutions Never go Backward.

This is especially true when they have genuine merit, such as is found in Patapsco Baking Powder. Housekeepers have only to try this Powder to prove the above motto of the truth of history. Patapsco Baking Powder will never go back on you. It is uniformly good and economical.

If you want to have the most delicious Biscuits you ever tasted—if you want the most delicious Pastry, Dumplings, common and fancy Cake—If you have dyspepsia, and want to get rid of it, or if you want to prevent it—use Patapsco Baking Powders, to be had of all grocers.

Cuticura

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures the most horrible Ulcers and old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

Messrs WEEKS & POTTER: Gualemen—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary, and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely heal d. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

CURED IN ONE WEEK.

Messrs WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day.

E. P. DAGGETT.
MILFORD, ME., June 10, 1878.

NOTE.—Reader, don't you think these cures remarkable?

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 80 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One third Cash; balance on reasonable time.

——Mr. A. H. Baker, a former merchant of this city, now at Louisburg, is in the city.

——Two rather ancient "muels" were auctioned off in front of the court house yesterday.

——The Rink one of the most popular resorts for active amusement in the city was well attended last night.

——I. W. Durham and lady returned to Winston Monday night, as we learn from the Winston *Sentinel*

——Judge Gudger is expected to arrive in the city to-day and will open Wake superior court Monday morning at 10 o'clock.

——James Armstrong & Co., of Baltimore; Lanford and Robinson, of Troy, N. Y., and Patterson, Renshaw & Co., Baltimore, took out drummers' license yesterday.

——A number of Grangers are in the city, returning home from the meeting of the State Grange recently held in Charlotte.

——Mr. Richard Sykes, you have a letter at the postoffice, and it is to be delivered in "Alamance county," according to the direction.

——Politics seem to be the order of the day. The politicians are everywhere—just like the weather; perhaps more numerous, however.

——The *Southern Progress* of February, gives a sketch of "a mountain road in North Carolina." The *Progress* is published in New York and is a monthly journal.

——Colonel McDonald says: "The ring in North Carolina has 'busted,' and the fight made in Pennsylvania between Blaine and Grant will prove a victory for Sherman!" Selah!

——The laying of the new brick walk in the corridor of the county court-house building has begun. Henry Jones, colored, is the contractor.

——Lincke's gymnasium, ten-pin alley, billiard hall, reading room, etc. etc., attracted quite a congregation of the lovers of the different games last night.

——The Supreme Court Librarian, Mr. Leroy G. Bagley, requests all lawyers who have borrowed books from that library, to please bring them in immediately.

——"H. G. G." requests us to request the author of the reply in the *Dispatch* to his article which appeared in the *Visitor* to explain his meaning in reference to the 6th clause.

——The cow is mightier than the horse. So a countryman thought yesterday after he had tried to gallop his steed over one of those animals and was dumped in the gutter.

——The Executive Committee of the Board of Trustees of the State University were in session yesterday at the Executive office; nothing of espscial public interest transacted.

——From the way the police whistles sounded yesterday afternoon about 4:30 o'clock it seemed as though there was a first-class row on hand at one of the principal saloons. Nothing of any importance occurred however.

——Vox Populi or words to that effect will be the name of W. V. Turner's next Republican newspaper. It will run the Grant-Keogh wing for the Republican party and probably start in the next week.

——Mr. Chas. E. Belo is visiting Salem, his boyhood's home, says the Winston *Sentinel*. Mr. Belo is a brother of our townsman, Mr. R. W. Belo, and one of the proprietors of the Galveston *News*, one of the leading daily newspapers of the South.

——Kerney Dollar, colored, was caught in Chatham, from White Oak township, this county, charged with the non-payment of a bill of cost. He sleepeth peacefully in the county jail. No serenades, gentlemen.

——Special train will run from Raleigh to Wake Forest College next Friday, February 13th, anniversary day. Leave Raleigh at 4 o clock p. m., and return at 12 o'clock. Round trip tickets seventy-five cents.

——Charlie Dillman has a letter addressed to him at the postoffice, which says he lives at Cinnewall, N. C.; but as none of the department seem to know anything of such a postoffice within the confines of this State, it's likely he'll wait a while before that letter is delivered.

——Captain White, engineer, says the postoffice uses three-quarters of a ton of coal per day. He has noticed the article which appeared in the NEWS of yesterday, saying that operations would be suspended at the Pottsville, Pa., mines, from the 6th to the 22d of this month, and will try and induce custodian Young to purchase a supply of that article before the price is raised. Good thing.

——We propose to make the local department of this paper a special feature in the future. Everything of local interest will be found in these columns

——Messrs. Stronach & Belo are showing an unusual degree of energy and business tact in the management of their auction and commission business. They make another important announcement among the new advertisements this morning.

—The Tuckers are out in a new advertisement o seasonable goods in their line. Among other things they call attention to their large assortment of coats and cloaks, spool cotton, gaiters for five dollars, black alpacas, black cashmeres and ladies cloaks.

——The Washington *State Press* says Mrs. Rosenthal with her family, left our town last week, for Raleigh, N. C., where she will make her future home. We are always sorry to notice the departure of any of our people for homes elsewhere, but we must remember that circumstances often make it to our interest to select other homes.

——Mr. Paul Lincke has added several additions to his house of pastime recently. He now has in connection with his gymnasium and shooting gallery, a billiard hall, ten-pin alley, reading room and a first class piano, so that most any one who likes amusement of any kind can find a "pastime" here. Encourage Mr. Lincke—he deserves it. As he pertinently remarks, if his hall is not a popular retreat it is not his fault.

—— The Charlotte *Observer* says Dr. Geo. W. Graham, of Raleigh, well known throughout the State as a specialist in diseases of the eye, ear and throat, has just completed his arrangements to move to Charlotte and locate permanently. He is especially well known in Charlotte and vicinity, having been in the habit of visiting the city at stated intervals for practice. We are glad to welcome such men to the community. For the present Dr. Graham may be found at the office of Jones & Graham.

——Mr Charles L. Cooke and wife from Stanton, Va., arrived in the city last night and will remain in the city a few days on a visit to relations. Mr. Cooke is the son of Mr. W. D. Cooke, who was the founder and for a long time superintendent of the Deaf and Dumb Asylum, as will be remembered by a large number of his friends in this city. Mr. Charles Cooke is the Secretary of the Valley Virginia Life Association of Staunton and is in the city for the purpose of establishing his company in this State.

——Justice Barbee had only one criminal case of importance yesterday and that weren't very "important." It was a claim and delivery case which read thusly: "Alice Crenshaw *vs.* Barnes Crenshaw." It was ordered by the justice that the defendant deliver the articles of personal property claimed by the *femme* plaintiff. Barnes "swared dat she shuden't hab nuffin out'en his hous, suah." But Barnes will perhaps find to his sorrow that a decree of court, even though it be a Justice's court, commands, and is bound to be respected. Police!

——Mr. President Battle, of the University was in the city yesterday in attendance upon a meeting of the Executive Committee of the Board of Trustees of the University. He states that the work on the University Railroad will begin Monday or Tuesday next. The convicts will leave for the University station Monday equipped for active service. The road will begin at that point and will be run nine miles thence to Chapel Hill, which point, President Battle thinks will be reached by the first of of next year. The survey is nearly completed and everything is ready for the convicts shovel and pick. When the road is completed President Battle says he will feel as though the University is connected with the Universe.

Moore's History of N. C.

Major Moore's complete "History of North Carolina" will be a work of exceeding great value to the State. The book will comprise a thousand pages of chronological events, etc', which can be found in no other work, only small portions may be picked up here and there. The book will be ready in a short while, and will be as handsome a specimen of typographical work as ever came from any northern press.
